

Montessori Mobile & Toy Making Workshop

Centennial Montessori School

6 Tenth Ave. San Mateo, Ca. 94401

\$40 plus material fees. Offered periodically throughout the year.

Come make a mobile or two, as time allows.

Discussion included on the developmental basis for the mobiles.

Please call for dates or register by emailing info@centennialmontessori.org.

For questions on the workshop, call 650-340-1230 or email laura@centennialmontessori.org

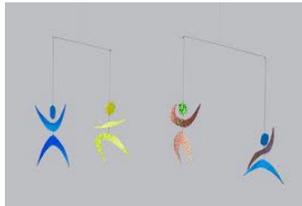

Gobbi Mobile

It is hung within focusing and batting distance of the child. The gradation of colors and natural motion in the air currents will attract and stimulate your baby's visual sense. When she unintentionally bats the ball the result is so intriguing that she will attempt to repeat this action. As she becomes more successful she is beginning to coordinate her hand and eye movement.

Watch a video of a baby using her Gobbi:

\$5 material fee

Dancer's Mobile 2-3 Months

This mobile encourages the baby's depth perception and skills for dynamic visual focus. The light reflection, color contrast, and graceful movement help grab the baby's attention.

\$8 material fee

Ring On Ribbon

This grasping mobile will offer your baby something to focus her energies upon as she develops her abilities of grasping and batting.

\$8 material fee

Bell on a Ribbon, Mobile for grasping

The shiny bell and contrasting ribbon will catch her eye. The sound she makes when she touches the bell will encourage her to repeat her movements developing precision and control in her body. She will gain a sense that she is changing her environment in some wonderful way.

\$6 material fee

Butterfly Mobile

The butterfly mobile flutters gently in the natural air currents and the bright colors will attract your baby's attention.

\$20 material fee
